Confirmation Code For Office 2007 For Telephone !!BETTER!!

a7: while your computer is running, the office activation wizard connects to microsoft's activation servers. your computer is redirected to the microsoft activation servers to retrieve the activation information. this process takes approximately one minute. a9: the office activation wizard generates a password to access the product registration web site and downloads the registration file to your computer. after you register, you may download the product registration file to a floppy disk and then run it from the floppy disk during installation. the product registration file contains a key that allows the office activation wizard to connect to microsoft's activation servers. the file also contains a software identifier that represents the configuration of your computer at the time of activation. it doesn't include any personal information, any information about software or data that may reside on your computer, or any information about the specific make or model of your computer. the software identifier identifies only the computer. additionally, the computer identification is used only for activation. a11: after registering, you'll be taken to the product registration web site. the site will indicate the registration date and time. when the site is completed, you'll be taken to the office activation wizard. office 2007 has reached the end of its support lifecycle, meaning there are no new security updates, non-security updates, free or paid assisted support options, or online technical content updates. customers who are using office 2007 products and

services should move to office 365 or upgrade to the most recent version of office.
