Smart Bro Crack+

Sick of opening a browser to check your inbox, quickly sending a picture, or checking an email? Sick of working with tabs and mouse controls? Sick of the lack of good features? Sick of having only one default browser? Sick of simple? Then sick of all of the above? Well get sick of it no longer. We introduce to you our very own browser "Smart Bro", which comes with a good clean interface, a tabbed interface with simple mouse controls, and a very large collection of options, which makes it very very easy to customize it to your needs. Features: - Provides a tabbed interface for easy navigation - Very easy mouse controls, simply left click on the desired menu and right click on the desired tab - Easily switch between tabs, windows and the system tray - Use mouse gestures to open, close, zoom and exit windows - Copy text, images and other items from one window to another - Very large collection of options - A LOT! In fact so large it is impossible to have used them all by the time you are done with this review. What more could you want? If you have any problems with this browser, or if you are just plain sick of it, please get in touch with us. We are here to help you, and we're always happy to hear from you, so please do not hesitate to ask us any questions, we are only a phone call away! Sick of opening a browser to check your inbox, quickly sending a picture, or checking an email? Sick of working with tabs and mouse controls? Sick of the lack of good features? Smart Bro Crack Download

Smart Bro is a simple-to-use web browser that supports multiple tabs and comes packed with some interesting features. The interface of the application is clean and familiar, so you shouldn't have any problems in getting around its options. So, you can cut, copy and paste text, use search and undo functions, increase or decrease the font, switch to full screen mode and disable toolbars. In addition, you can create and organize a favorites list, view URL history and the source code (in a plain text document), use a RSS reader, reset all tabs, as well as disable images, sound, videos, and more. In the "Options" area you can set a password when Smart Bro minimizes to the system tray, enable the tool to clean items when exiting (e.g. address list, cookies, Internet history), add custom links, change the interface skin, disable automatic form filling and the popup killer, configure mouse gestures, and more. The web browser requires a low-to-moderate amount of system resources, supports keyboard shortcuts, can guide you to a comprehensive help file online and is very stable. No errors have popped up during our tests and we strongly recommend Smart Bro to all users, whether we're talking about beginners or experienced individuals. The interface is clean and clear; the control panel is equally attractive. The program is fully featured and allows you to perform most functions related to browsing the web in a simple and intuitive manner. The interface is clean and simple, and you won't get lost as soon as you launch Smart Bro. You can load a lot of tabs at once, and all of them are displayed in a single window; they can be sorted alphabetically. You can disable or enable each tab individually. You can drag tabs out of their container and onto the desktop, and you can position them wherever you want. You can change the font size and the window position and size, and you can even resize the entire window as long as you're not in full screen mode. The icons are well-placed and arranged so that they're easy to access. You can customize the colors of the interface. The interface allows you to quickly access favorite URLs, add custom ones, and even create a favorites list. URLs and images can be bookmarked. Clicking a bookmark icon opens the bookmarked page in a new tab. Clicking the back button in the URL column returns you to the previous page. You can
